

DR. WARSCHAWSKI

SABINE HEINVIRTA

Executive Vice President & COO

Trained in economics, commerce, and personnel management, Sabine Heinvirta has been a successful, independent Business & Achievement Consultant for 25 years. She focuses on the area of potential – developing employees, organizations, and leadership – from middle to top management levels.

Her credo: the best employees alone do not make an organization successful. It is their cooperation with the company's goals that produces the best performance and powers the organization to the top.

With this awareness, Sabine Heinvirta has worked successfully for many years to match employees and companies that mutually enjoy working together and want to produce top results.

As a certified Consultant for Vision-Led Companies and Organizations, Sabine Heinvirta enables companies to complete the elegant leap from a purely hierarchical organization to a vision-led organization.

Innovative companies and CEO's from diverse industries are increasingly turning to this attractive concept to couple high human values with increased profit.

Parallel to her management of the company, DR. WARSCHAWSKI, Sabine Heinvirta organizes and coordinates all operations and procedures that support Prof. Dr. Peter Warschawski in advancing Contextual Thought worldwide through his seminars, consulting, and coaching, as well as his training and schooling of Life Coaches and Vision-Led Consultants for business.

Active in her own private practice as a certified Contextual Coach, she helps her clients either achieve their burning goals in a playful and lightfooted fashion or solve their problems in an efficient and effective manner.

Her specialty is Flow Leadership Coaching for senior management who are excellent leaders in their own right and who wish to influence and inspire others.

Sabine Heinvirta lives with her family on the Lake of Zurich in Switzerland.
