DR. WARSCHAWSKI

DR. STEPHAN DUMKE
Licensee

Dr. Stephan Dumke completed his studies in Business Administration at the University of Cologne in 1992. At the Gerhard-Mercator University of Duisburg he focused his dissertation on the topic of Brand Management and was awarded his Ph.D. in Economics there.

Working in leadership positions for wellknown commercial companies for over 20 years, he has amassed varied and valuable experience, which is integrated into an overarching company perspective.

As CEO, director, and general manager he was responsible in particular for the areas of strategy, business consulting, distribution, marketing, purchasing, eCommerce, and human resources. His branches of trade stretched from food stores to consumer electronics, from department stores to the Fashion/Lifestyle industry.

Upon completing his training and satisfying the qualifications for certification as a Certified Contextual Coach as well as for certification as a Certified Vision-Led Company Consultant with Prof. Dr. Peter Warschawski, he built up his own company in Bonn.

Today, as a licensee partner of DR. WARSCHAWSKI, he helps companies transition successfully to becoming Vision-Led companies, which uniquely combine increased profit with high human values. He works with his clients on a very individual, practical, and profitable basis.

In this work, he ties the extensive practical experience of his operational and strategic leadership responsibilities to the newest scientific findings on company leadership, personal development, and psychology.

In addition, Dr. Dumke's clear and efficient coaching enables organizations as well as private clients, who want to use this elegant method, to work out tailor-made solutions to significant challenges in order to achieve their burning goals.

From his headquarters in Bonn, he is active in all of Germany – and by request – also in Austria and Switzerland.

Dr. Dumke lives with his wife in Bonn and has two adult sons.
